

Marc Angelo Manalang

FRONTEND DEVELOPER

marc.a.manalang@gmail.com | linkedin.com/in/gelomanalang

PROFILE

"Proven success through creativity, logical reasoning, and passion."

Frontend developer with over 10 years of experience building clean, effective HTML and web content. Specialises in user-friendly, responsive interfaces that blend structure with creativity, spanning interactive game and playable development, digital adoption platforms, and large-scale content production. Experienced as a technical subject-matter expert across distributed teams, setting coding standards and training other developers.

EXPERIENCE

Frontend / Playables Developer

DigiPlus Interactive Corporation

Jun 2025 - Present

- Build interactive playable and game experiences for web using JavaScript and Phaser.js.
- Develop responsive, cross-browser frontends with HTML5, CSS3, and modern JavaScript tooling.
- Optimise assets and rendering performance for lightweight delivery across devices.
- Use AI tooling (Claude and ChatGPT) throughout the HTML5 content creation workflow to speed up prototyping and production.

Digital Adoption Platform Developer

Arcadis GEC / GSSC Philippines

Apr 2021 - May 2025

- Designed and deployed in-app guidance, walkthroughs, and automation using WalkMe across enterprise applications.
- Extended platform capability with custom JavaScript, jQuery, and CSS to meet requirements beyond out-of-the-box features.
- Partnered with business stakeholders to translate adoption challenges into practical digital solutions.

Named to WalkMe's Top 100 DAP Professionals — 2022

Creatives Lead / Host & Caster

Esports — Freelance

Aug 2020 - Apr 2021

- Led the creatives team, overseeing production of broadcast and promotional assets for tournaments.
- Produced video content and motion graphics with Adobe Premiere Pro and After Effects.
- Cast and hosted live events, presenting to online audiences.

Digital Content Management Analyst

Accenture Inc.

Nov 2016 - Aug 2020

- Served as subject-matter expert for the Manila and Mumbai delivery teams.
- Defined and enforced coding standards, reviewing work for quality and consistency.
- Trained and onboarded developers on tooling, process, and best practices.
- Produced and edited supporting visual assets in Adobe Photoshop and Illustrator.

Senior Creative Developer

Wide-Out Workforces Inc.

Oct 2015 - Oct 2016

- Built animated, responsive HTML advertising units for a range of client campaigns.
- Converted legacy Flash creatives to HTML5, preserving animation fidelity across browsers.

Junior Developer (Internship)

Infor PSSC

2014 - 600 hours
